Notice is hereby given to prospective bidders that the Plans and Specifications for the subject project are modified as set forth in the Addendum Number 3.

This Addendum shall be attached to, and form a part of, the Plans and Specifications for the construction of the **2015 Sewer Rehabilitation Project City Contract Number 2015-534**, on which to bid. A conformed set of plans and specifications will be issued after award of the contract.

## PLANS

Sheets 6, 9, 10, 12, 13, and 14 – Additional water main information and separation requirements.

## TECHNICAL SPECIFICATIONS

Technical Specification Section 01120 – Work Constraints, add Section 1.10:

### 1.10 WATER MAIN SEPARATION AND SHUTDOWN REQUIREMENTS

- A. The Contractor shall identify all locations where the horizontal clearance between existing parallel water mains and new sewer mains (open trench construction) and/or outside edge of the manholes is less than seven (7) feet. The approximate location where the clearance is less than seven feet is shown on the plans. The water mains in all locations where the clearance is less than seven (7) feet shall be temporarily shutdown by the Mid-Peninsula Water District during construction. The shutdown requirements are listed below.
- B. Water Main Shutdown Requirements:
  - 1. The Contractor shall notify the Mid-Peninsula Water District five working days in advance of all required water main shutdowns.
  - 2. Shutdowns are limited to the hours of 9am to 3pm
  - 3. Any open trench within seven feet of horizontal clearance between parallel existing water mains, new sewer mains and/or outside edge of the manholes shall be fully backfilled and compacted prior to the end of the shutdown.
  - 4. Shutdowns for the same customers are limited to two days within a ten working day window.

5. Notification from the Contractor under item one above is considered a shutdown, even if the contractor later decides a shutdown needs to be rescheduled or is no longer needed.
6. Contractor shall take great care to insure the existing water main and appurtenances are not damaged. The Contractor will be responsible for repairs to the water main should any damage or leaks occur due to the Contractor's work.

---

Acknowledgement of Receipt of this Addendum to be submitted with the bid proposal.
